Mr. Thomas C. Settles, President  
Omega Paving & Construction Management Group, LLC  
555 Ralph McGill Blvd.  
Atlanta, Georgia 30312

Dear Mr. Settles:

Please accept this letter of Support of and Testimonial to how effective your product Pave-ZYME (PZ 22-X) has been in stabilizing the soil on roads in Monroe County. Over the last 3 summers we have used the product on 1 road each summer. We have been Very pleasantly surprised at the results. We have treated the base of three roads and later chip sealed those roads without having to do any maintenance to those roads. I serve as both the County Road Manager and County Manager in Monroe County, MS. Further, I have been a Road Manager or been involved in road building for over 25 years and this Pave-ZYME (PZ 22-X) is the best product that I have seen for stabilizing roads in MS. The thing that is as impressive is how cost effective the product is. Using this product you can realize a 30-40% savings on stabilizing the base of the road.

It is my understanding that you plan to Partner with Mississippi State Research & Engineering Dept and Local County Officials to do a Documentary (**ROADS OUT OF POVERTY, ROADS TO PROGRESS**) on the how your Pave-ZYME (PZ 22-X) product can significantly reduce the cost for paving roads in Rural MS a minimum of 40-50%/mile from the conventional way. Per your request I am consenting to assist with the successful completion of that documentary. Any additional letters of support or testimonial to the quality of this product and the importance of this documentary to Rural MS that are needed from me will be provided to you and this project in a very timely manner.

I look forward to a continued, long and productive relationship between Monroe County and Omega Paving & Construction Management Group, LLC as we strive to improve the Quality of Life of the Citizens of Monroe County and the state of Mississippi. If you have any questions, please call me at (662) 369-2509.

Sincerely,

  
Sonny Clay, Monroe County Manager
